

Green Earth Rockets instructions

step 1

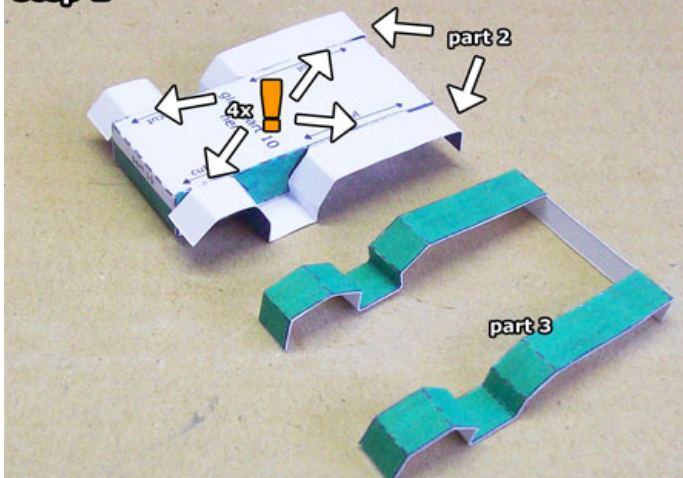

Preferably print the parts on thicker paper, and gather your papercrafting tools! /2

step 2

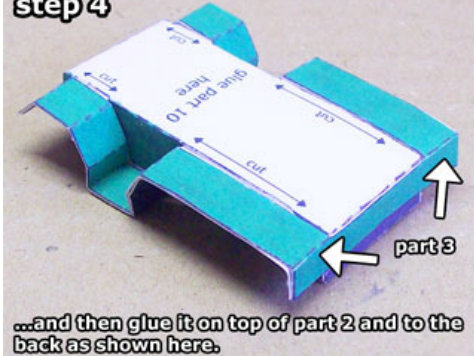

Cut out the 4 slits on part 1, and glue it together. Pre-shape part 2 with the coloured side down as shown here (DON'T score or fold the 4 larger glueing tabs!

step 1

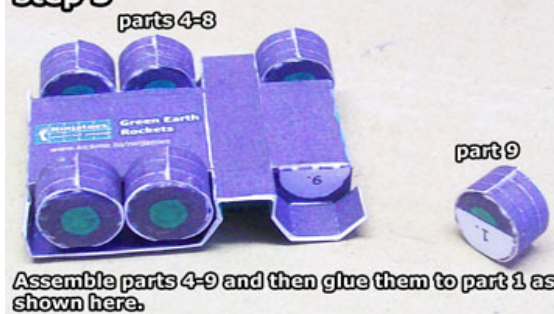

Attach part 2 to part 1, by sliding the 4 glueing tabs through the slits and glueing on the bottom. Then pre-shape part 3 (with the coloured side up)...

step 4

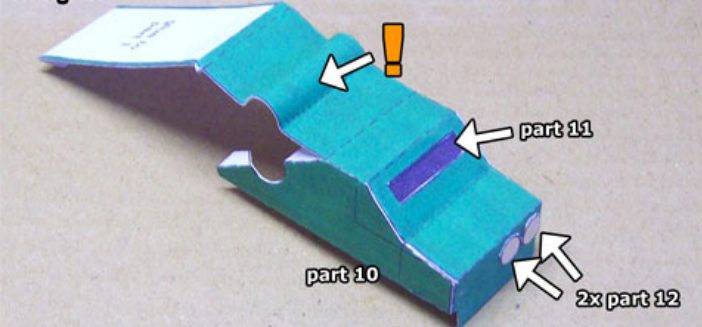

...and then glue it on top of part 2 and to the back as shown here.

step 5

Assemble parts 4-9 and then glue them to part 1 as shown here.

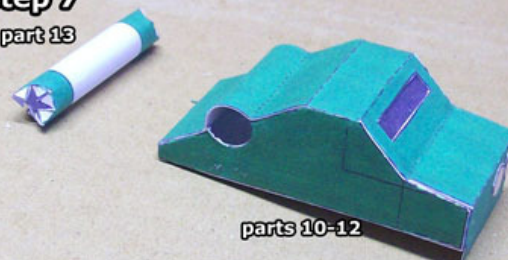

step 6

Pre-shape the back of part 10 to create a "tunnel", but before closing part 10, glue part 11 underneath the hole at the front and parts 12 at the front.

step 7

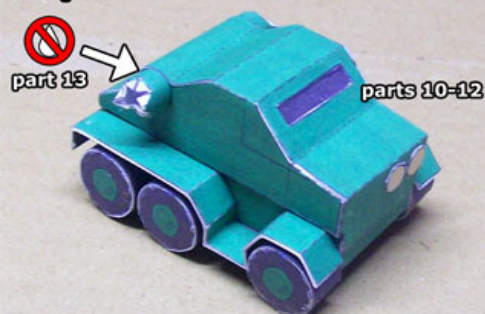

part 13

parts 10-12

Close the back and bottom of part 10, assemble part 13...

step 8

...and then glue parts 10-12 on top of part 1, and push part 13 through the "tunnel" at the back (DON'T use any glue for this!)

step 9

part 16

part 15 part 14

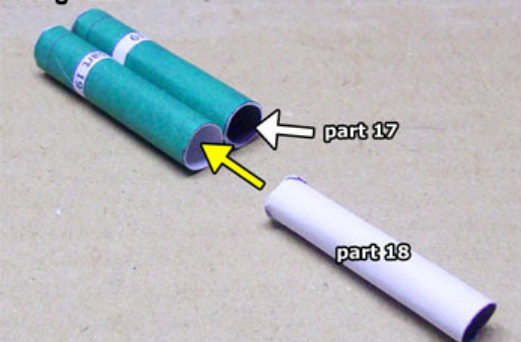

Assemble parts 14 and 15 and cut out part 16.

step 10

Glue parts 14 and 15 together along their seams, and then glue part 16 to the back as shown here.

step 11

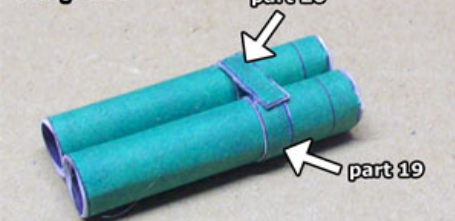

Assemble parts 17 and 18 with the coloured sides in, and then glue them inside parts 14 and 15.

step 12

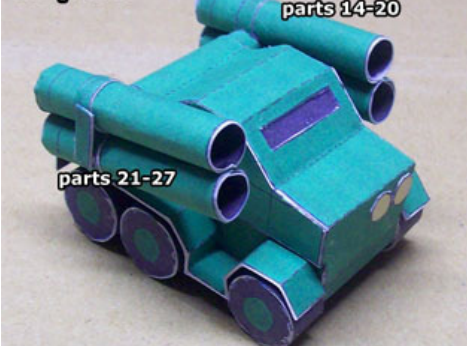

Fold double part 20 and pre-shape part 19...

step 13

...and then glue part 19 around parts 14 and 15 and glue on part 20 as shown here.

step 14

Next, glue parts 14-20 to the left side end of part 13, and then assemble parts 21-27 and glue it to the other end.

step 15

To build the little soldier, start by assembling part 28...
